Julie Brown

Jen Geraghty

Alicia Henke

Hannah Huberty

Charo Nickens

Committee Members Absent:

Luke Thompson

COMMITTEE MINUTES

MDE did not provide feedback on Athlos Leadership Academy's most recent annual World's Best Workforce report so the committee was not able to take that information into account.

The committee discussed pandemic-related impacts on student achievement and growth including academics and social-emotional learning.

The committee discussed goals for the 2023-2024 World's Best Workforce plan. For the PreK goal, we will leave the goal at the same level of rigor as prior years, knowing that the new PreK assessment system aligns well with the assessment system used in prior years. The Kindergarten and Fountas and Pinnell goal will likely increase. Jen Geraghty will revisit this goal after Fountas and Pinnell scores are finalized this spring. The committee would like to change the third grade proficiency goal on Fountas and Pinnell to 85%. For all other goals, it was noted that increases are necessary for closing the gap between school proficiency and state proficiency on Reading and Math MCAs. Goals will be set after viewing final MCA scores this summer.

ADJOURNMENT- 4:22PM
